

# Mrs. Muesse

## Welcome Newsletter

Hello, and welcome to Mrs. Muesse's class, room 103. I'm looking forward to a wonderful summer. I would like to personally introduce myself; my name is Kelly Muesse. I have my teaching certificate in Early Childhood Development. I am also continuing my education at Fullerton College. I'm a mother of 2 wonderful boys, Samuel age 12 and Abel age 9. I can't wait to meet and get to know my students and their families.

Each week there will be a class newsletter that will inform you of what we are learning for the week and if there are any special activities planned. You can access the class newsletter on our website: <http://littleschoolofthewest.com> and it will be posted on our parent information board (located above the cubbies).

**Unit of Study:** Every week we will explore a different subject. I try to plan as many activities as possible around the subject to help give the students a full understanding of the subject.

**Bible Story:** We have a new Bible Story each week. As a school whose foundation is the Bible, we believe in the importance of teaching the children about the people and happenings in the Bible. We do this through our Bible Story books, Flannel Board Figures, Dramatic Play, Music, and Art.

**P.M.D.:** We will be doing a variety of activities to promote and develop large and fine motor skills. Other areas of P.M.D. include balance, flexibility, spatial, and body awareness.

**Special Snack:** Twice a month we will be having a special snack. To ensure the health and safety of our students and staff, the school will provide all ingredients for our special snacks at this time.

**Share Time:** Our class will have share on Thursday and/or Friday. To make this a learning time, as well as a fun time, your child may bring one item from home relating to the Unit of Study or our Bible Story. Please remember not to allow your children to bring anything that promotes violence.

**Sticker Cards:** To help build your child's self-esteem, I will give each of the students a sticker card. Stickers may be earned in many ways. For example, sitting like a student, being a listener, following the rules, being a helper, knowing the correct answer, ect. The students work hard all week for their stickers and on Thursday or Friday I will send the sticker cards home. This positive reinforcement helps your child to gain confidence, self-discipline and have fun in the process.

**Socialization-** Your child will have the opportunity to build relationships and develop appropriate problem-solving skills. We strive to help build your child's self-esteem and encourage independence.

This is going to be a great summer! Thank you so much for allowing me this opportunity to love, teach, and care for your child. If you have any questions or concerns, please feel free to ask me or the front office. Thank you.

Love in Christ,  
Mrs. Muesse
